Profile Summary:

I am a dedicated Full Stack Developer with comprehensive training in Java Full Stack Development and hands-on experience at ShivaMatrix Pvt. Ltd. I specialize in designing, developing, and optimizing web applications using modern front-end and back-end technologies. With a strong focus on clean code, performance optimization, and scalable architecture, I thrive in collaborative environments where problem-solving and innovation are key. Passionate about continuous learning, I enjoy staying updated with the latest technologies and building high-quality, user-friendly solutions.

Work Experience:

Full Stack Developer | ShivaMatrix Pvt. Ltd

October 2023 - Present

- Develop, test, and maintain web applications using a variety of front-end and back-end technologies.
- Collaborate with teams to design and implement user-friendly applications and new features.
- Translate client and user requirements into functional, scalable solution.
- Participate in code reviews, ensuring adherence to best practices and improving the quality and efficiency of microservices.
- Troubleshoot, optimize, and refactor code for performance improvements.

Projects:

Task Management System | Trello Clone

Technologies: Spring Boot, ReactJS, PostgreSQL, Hibernate, Spring Data JPA, Spring Security, REST APIs

Description: Built a task management system similar to Trello, where users can create boards, add tasks, assign them to team members, and track progress. The project can include real-time updates and team collaboration features.

ThoughtStream | Blogging Platform - Java Full Stack Capstone Project

Technologies: Spring Boot, Spring MVC, AngularJS, JSP, MySQL, Hibernate JPA, Spring Data

Description: A blogging platform being developed as a capstone project for the Java Full Stack training. The project aims to provide a robust platform for bloggers to share their content with a focus on scalability and user engagement.

APS Sensors Web App | APS Labs Pvt. Ltd | apssensors.com

Technologies: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

Description: Full stack web application allowing users to control and monitor APS Labs equipment. Included an admin control center and a dynamic dashboard for real-time data visualization, user and device management.

AXLE Web App | Volty IOT Solutions Pvt. Ltd | volty.in

Technologies: HTML, CSS, JavaScript, Bootstrap, MySQL

Description: Designed and developed a full stack website for Axle (Volty) IoT company with an emphasis on rich UI aesthetics and robust functionality. Ensured a seamless and intuitive user experience.

Advea Website | Advance Embryology Academy | advea.in

Technologies: HTML, CSS, Bootstrap, JavaScript, MySQL

Description: Developed a user-friendly website to provide information about embryology courses and services. Focused on creating an engaging and informative platform to enhance user experience.

Technical Skills:

Programming Languages: Java, JavaScript, SQL

Front End Technologies: HTML, CSS, Bootstrap, Tailwind CSS, Chakra UI

Frameworks and Libraries: ReactJS, Spring, Spring Boot, Servlet, JUnit, Hibernate, JSP, Servlets

Databases: MS SQL Server, PostgreSQL, MongoDB

Tools and IDEs: Git, GitHub, VS Code, Eclipse, Spring Tool Suite, Docker, Webpack

Build Tools: Maven

Web Services: REST

Other: OOPs, Agile Methodologies, SOLID principles, Microservices, MS-Excel

Education and Training:

Java Full Stack Development Training

Apr 2024 - Jul 2024

Symbiosis Skill and Professional University / Capgemini

B Tech. In Computer Science and Engineering

Dec 2021 - July 2024

CSMSS Chh. Shahu College of Engineering, Chh. Sambhajinagar

Diploma in Mechanical Engineering

Sept 2018 - Aug 2021

Govt. Polytechnic Aurangabad, Chh. Sambhajinagar

SSC

Mar 2018

Swami Vivekanand Academy, Chh. Sambhajinagar

Soft Skills :

Strong Communication

Observation

Team Player

Time Management
